

PLANETARY SYSTEM

MIRROR COATING FOR VISORS

The new and versatile **Planetary System** expands the possibilities of labs to coat visors and other special curved surfaces on Satisloh's 1200-DLX-2 or 1500-X box coaters.

- Enables even color distribution over entire visor surface
- Fast loading and unloading of large visor batches for coating
- High loading and production capacity (varies on size of visor)
- Multiple applications for security, sport and industrial visors and a variety of curved substrates
- The system is capable of handling a wide range of substrate types and sizes
- The ergonomic and customized design of the holder system allows fast and easy handling during loading/unloading of substrates

Planetary system is designed for Satisloh's 1200-DLX-2 or 1500-X box coaters.
